

Pit River Tribe - Tribal Archaeologist/NEPA Coordinator

Written by Gaëtan Juillard

Friday, 11 December 2009 03:08 -

Listed 11/17/09

Description:

The Tribe's archaeologist will be the project manager for the Tribe's Cultural Resources program. In general, the project manager will be responsible for the operations and continual development of the Cultural Resources program and Tribal Historic Preservation Office. The project manager will be responsible for coordinating the environmental review of the Tribal Housing, Roads, Casino, and Natural Resource projects, as well as coordinate review and comments of the federal, state, county, and special resource district environmental assessments.
